Amazon Web Services (AWS) SME
Arlington, Virginia

Full Visibility is looking for an **Amazon Web Services SME** with a demonstrated ability to think strategically about businesses, create technical definitions around customer objectives in complex situations, develop solution strategies, motivate & mobilize resources, and deliver results.

Job Responsibilities Include:

- Connect technology with measurable business value
- Work directly with enterprise customers to help enable innovation through continuous deployment across technology stacks, with deep hands-on skills
- Build architectures and provide prescriptive guidance not only on the application, but also across network, storage, operating systems, virtualization, RDBMS & NoSQL databases, Hadoop, mid-tier technologies that include application integration, in-memory caches, and security

Requirements and Qualifications:

- Experience designing available, cost efficient, fault tolerant, and scalable distributed systems on AWS
- Experience with deploying hybrid systems with on-premises and AWS components
- Experience ensuring compliance to best practices
- Experience articulating and diagramming design and implementation choices
- Experience with AWS CloudFormation
- Experience with AWS RDS
- Experience with NoSQL and Graph Databases
- In-depth knowledge of at least one high-level programming language
- AWS associate or professional certification required

About Full Visibility:

Full Visibility is a growing technology solutions company that supports federal and state government agencies specializing in data analytics and custom software solutions. As a certified Virginia based Small Business, our primary asset is our exceptionally skilled, loyal, and motivated workforce. Our clients benefit from high employee morale and retention rates, which leads to an experienced and consistent quality performance. Our success is evidenced by our awards and rankings (Inc. 5000 "Fastest Growing Companies" list for 2014, 2015, 2016 and 2017; six-time honoree of the Washington Business Journal's "Best Places to Work").

Our core competencies consist of Big Data Collection & Analysis; User Experience & Visualization; System Integration & Interoperability; Virtualization & Migration; and Business Management & Instructional Design. Full Visibility additionally holds a GSA IT Schedule 70 (GS-35F-197BA) and is a certified Microsoft Silver Partner.

Since we were founded in 2006, we have developed a diverse set of clients in both the public and private sector. Our client portfolio includes the Department of Veterans Affairs, the Department of Homeland Security, and the Department of Justice as well as additional state and federal government agencies. We have also provided commercial services for multiple Fortune 500 companies as well as local small businesses.
